Annual Gaseous Electronics Conference
October 9 – 13, 2023 | Ann Arbor, MI

October 9 – 13, 2023
Ann Arbor, MI
The Gaseous Electronics Conference (GEC) has a long leadership history in providing a venue for the exchange of ideas and reporting research results in low-temperature plasma science and technology. Areas of emphasis include the science of plasma sources, diagnostics, modeling, plasma chemistry, basic phenomena, and atomic and molecular collision processes. It is also a leading venue for reporting on emergent areas of plasma-based technologies, including microelectronics, propulsion, biotechnology, plasma medicine, multiphase plasmas, environmental applications, and atmospheric-pressure plasma systems. The 2023 GEC will continue the tradition of being a leading venue for the advancement of low-temperature plasma science and technology.

Become a part of our global community by exhibiting and sponsoring at GEC’23!
Attendees, exhibitors, and sponsors can expect the same collegial, intimate, and academic GEC community that you know and love. Plus, much more!

**Build Your Network**
Attracting over 450 attendees each year, GEC ’23 will bring together an international community of academic leaders and students, alongside leading companies, industry professionals, institutions, and organizations. 
*Check out the sponsorships and networking opportunities!*

**Learn and Grow**
Connections happen on and off the exhibit floor at GEC ’23. Exhibitors and sponsors are deeply integrated into the overall conference and throughout the GEC community. 
*You are invited to participate in exceptional workshops and sessions and attend poster networking sessions and social events throughout the meeting.*

---

**GEC offers many opportunities to get in front of and make meaningful connections with your target audience.**

There is no substitute for in-person education and networking. That’s why we’re committed to another fully in-person meeting so we can share, learn, and grow together.

GEC is pleased to organize the International Online Plasma Seminar (IOPS), to provide high quality research results and to engage with the community throughout the year. The IOPS seminars occur twice a month, via Zoom at no cost to the GEC community. Following each presentation, attendees can ask questions of the speaker, live. Presentations are recorded with speaker consent and available for download on-demand.

**Semi-Annual SPONSORSHIP**

$3,500.00 – GEC International Online Seminar sponsorship is a great way to increase your brand’s visibility. Each month, seminars are presented to hundreds of attendees all over the globe.

1. **Research highlights** - This presentation is intended to summarize a recent publication and is more highly focused on the topic of the publication.
2. **Tutorial** - This presentation more broadly addresses a topic and is more like a traditional departmental seminar.

**Sponsorship benefits:**
- Logo presence on opening session slide (two presentations per month)
- Prominent color logo placement on IOPS homepage
- Sponsor weblink on IOPS homepage
- Promotion via the IOPS newsletter, thank you to sponsor in footer
- Recording, including opening slides, hosted on the IOPS website
- On-demand viewing available to the community.

Average attendees per session = 150

Average on-demand views per session = 55
